

Delivering Circular Construction

BakerBrown Studio provides a full circular economy consultancy from project inception to completion, handover and beyond. By undertaking the key circular economy milestones noted below, we ensure that the true value of your existing place is realised without throwing it away. Applying closed loop

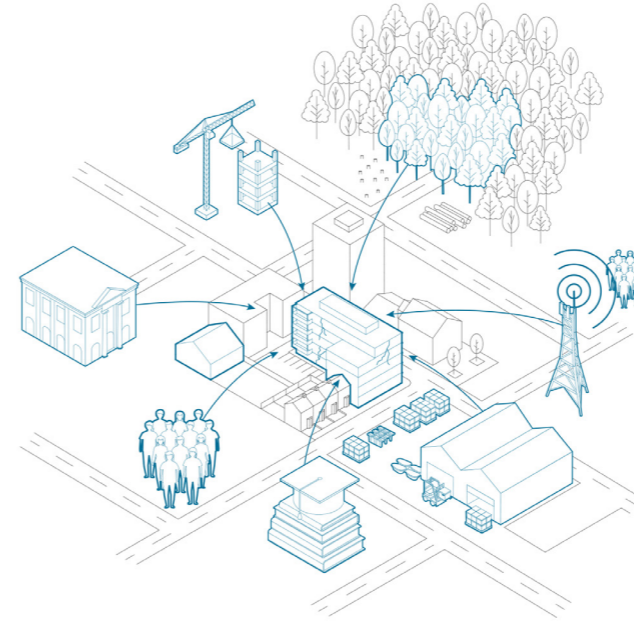

thinking to your development will ensure maximum value because it can deliver a massive reduction in whole life carbon, enable the regeneration of natural systems and local communities, whilst saving you money and Planet Earth's valuable natural resources.

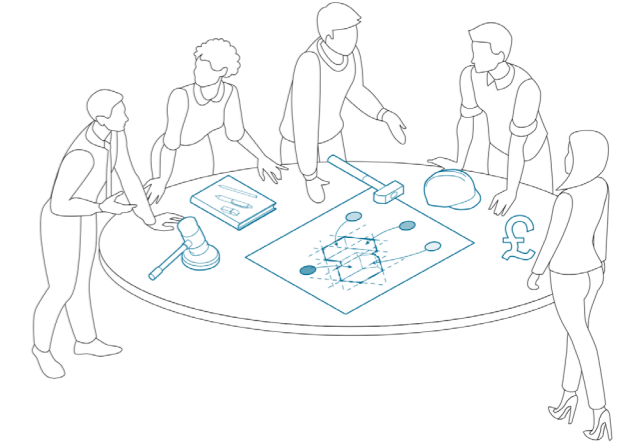

1. The Existing Site

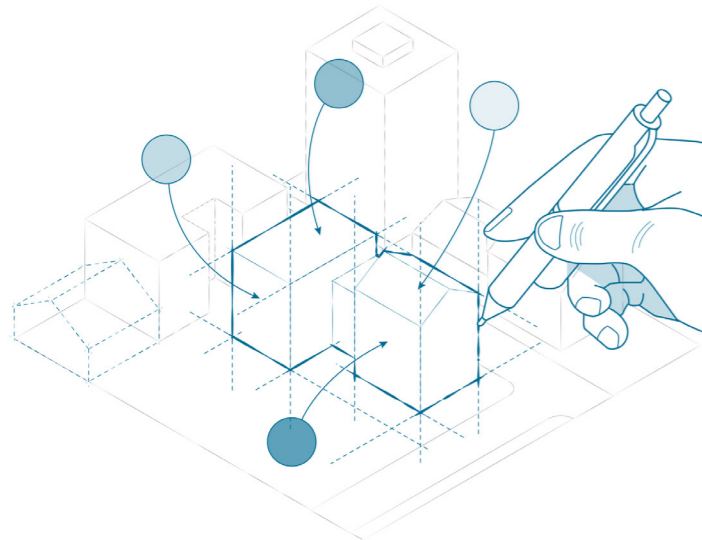

2. Audit and Assess 'Value'

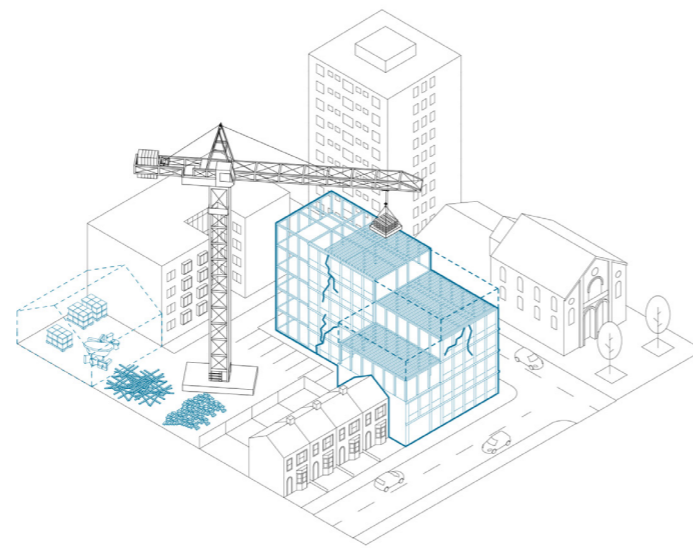

3. Mapping Local Resources & Networks

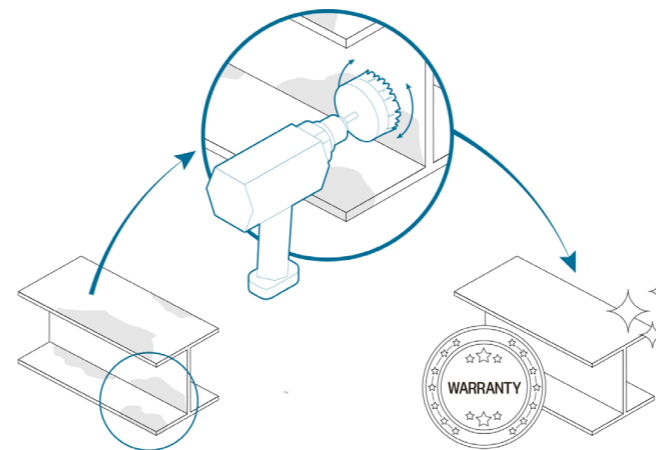

4. Assemble The Design Team

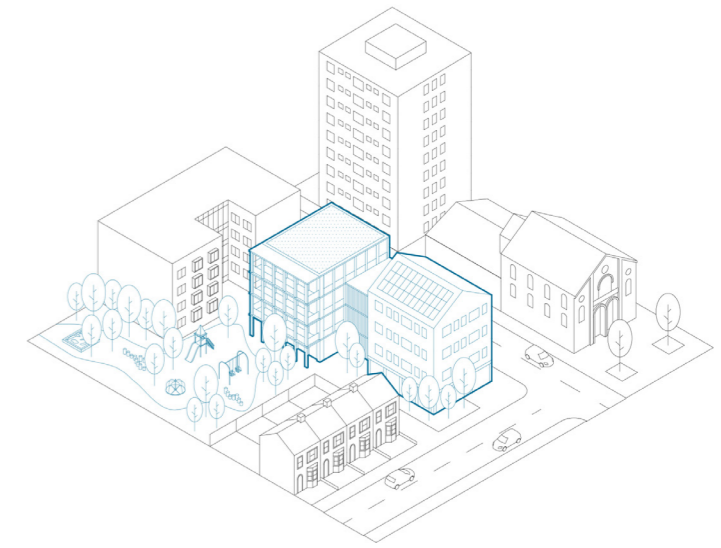

5. The Design Response

6. Facilitate Re-Use & Deconstruction

7. Manage Re-processing & Certification

8. Project Delivery
